Quick reference for client administrators: navigate to Account Track Registration on a bizhub i-Series MFP, then add or edit users, set allowances, reset counters, or print a counter list.

Getting to Account Track Registration

1. Press the **Home** key.
2. Select **Utility**.
3. Select **Administrator** (enter your administrator password), then **OK**.
4. Select **User Auth/Account Track**.
5. Select **Account Track Settings**.
6. Select **Account Track Registration**.

To Edit a User

Find the user, select the name, then select the **Edit** key in the top right corner.

To Add a User

Select **New Registration**. In the Password section, enter the user's password, then retype the password. Next, add the Name of the user. Scroll to the bottom and select **Total Allowance**. Enter the user's total allowance/limit. Select **All Accounts** if you want all users to have the same allowance.

Reset All User Counters

Follow steps 1–5 above, then in Account Track Settings select **Account Track Counter**. Select **Reset All Counters** on the bottom right of the screen.

Print Counter List

Follow steps 1–4. Select the tray you print from. Select **1-Sided**. Make sure to select **Print Data Only** (not all data). Select **Start**.
